Northern 3 VCT PLC is a Venture Capital Trust (VCT) managed by Mercia Fund Management Limited (the Manager).

It invests mainly in unquoted venture capital holdings and aims to provide long-term tax-free returns to shareholders through a combination of dividend yield and capital growth.

Financial summary

	Unaudited six months ended 30 September 2025	Unaudited six months ended 30 September 2024	Audited year ended 31 March 2025
Net assets	£131.8m	£129.7m	£130.1m
Net asset value per share	89.2p	88.5p	90.0p
Return per share			
Revenue	0.2p	0.4p	0.7p
Capital	1.4p	0.9p	4.1p
Total	1.6p	1.6p	4.8p
Dividend per share declared in respect of the period	2.0p	2.0p	4.5p
Cumulative return to shareholders since launch			
Net asset value per share	89.2p	88.5p	90.0p
Dividends paid per share*	124.6p	120.1p	122.1p
Net asset value plus dividends paid per share	213.8p	208.6p	212.1p
Mid-market share price at end of period	84.0p	85.0p	84.0p
Share price discount to net asset value	5.8%	4.0%	6.7%
Tax-free dividend yield (based on the net asset value per share)**	5.1%	4.7%	5.0%

* Excluding interim dividend not yet paid.

** The dividend yield is calculated by dividing the dividends declared in the 12 month period ended on each reference date by the net asset value per share at the start of that period.

Chairman

“
We are pleased to report an overall increase in the holding value of the unquoted portfolio, with strong performances from a number of portfolio companies.”

Half-yearly management report

for the six months ended 30 September 2025

Over the past six months, the UK economy has lagged behind international peers, with sluggish growth and stubbornly high inflation. Speculation on the upcoming UK government budget, global political tensions and trade wars continue to influence market sentiment. Your Company has maintained its long-term strategy of investing in promising early-stage businesses, supporting its existing portfolio companies, and generating cash from realisations where circumstances permit.

Venture capital investment activity and portfolio update

We are pleased to report an overall increase in the holding value of the unquoted portfolio, with strong performances from a number of portfolio companies increasing valuations by more than reductions in the valuations of companies that have performed less well.

During the period, we made a new investment of £2.3 million in Thanks Ben, an employee benefits orchestration platform. We have also invested £3.1 million in ten existing portfolio companies. Since 30 September, £4.2 million has been invested into seven companies, including a new investment into Space and Time Limited (t/a Tesseract).

Partial realisations were made in Buoyant Upholstery, Fresh Approach, and Project Glow (trading as The Beauty Tech Group) at our holding value, and in Angle plc, a listed investment, at a price marginally below the 31 March 2025 holding value.

One further realisation has also completed, with Thanksbox Limited (t/a Mo) returning £0.8 million, a £0.5 million uplift on June's holding value.

Shortly after the end of the period, portfolio company Project Glow (trading as The Beauty Tech Group) completed its IPO on the London Stock Exchange. This was picked up by the press as an encouraging sign of activity returning to the stock market, and is a really positive step for the company, which the Northern VCTs have supported since 2018. As part of the transaction, we realised 30% of our holding, generating proceeds of £2.3 million which was a return of 5.8 times our original investment cost.

The £8.9 million portfolio of listed securities managed by RBC Brewin Dolphin was liquidated and the funds were moved into a money market fund.

Results and dividend

The unaudited net asset value (NAV) per share at 30 September 2025 was 89.2 pence (90.0 pence (audited) on 31 March 2025). The total return per share before dividends for the six months ended 30 September 2025 as shown in the income statement was 1.6 pence, compared with 1.3 pence in the corresponding period last year. The performance produced an unrealised increase of £2.7 million in the valuation of the investments.

It remains our objective to pay a dividend at least equivalent to 4.5% of the opening NAV in each year. The Board has declared an interim dividend for the year ending 31 March 2026 of 2.0 pence per share, which will be paid on 21 January 2026 to shareholders who are on the register on 19 December 2025.

We continue to operate our dividend investment scheme, which enables shareholders to invest their dividends in new ordinary shares free of dealing costs and with the benefit of the tax reliefs available on new VCT share subscriptions. We have included details of the scheme within the dividend section of our website, which can be found at: www.mercia.co.uk/vcts/n3vct/.

Shareholder issues

As a result of the fully subscribed public share offer launched in January 2025, 6,596,320 shares were issued for gross proceeds of £6.0 million.

We continue to observe a sustained demand for long-term growth capital for smaller companies in the UK. In order to continue to support our existing portfolio and invest in new early-stage opportunities, we are currently fundraising in conjunction with the other Northern VCTs. Full details of how to participate in this are available on the Company's website at www.mercia.co.uk/vcts.

We have maintained our policy of being willing to buy back the Company's shares in the market to maintain liquidity, at a 5% discount to NAV. During the period a total of 3,845,712 shares were purchased by the Company for cancellation, representing 2.7% of the opening ordinary share capital.

VCT legislation and qualifying status

The Company has continued to meet the stringent and complex qualifying conditions laid down by HM Revenue & Customs for maintaining its approval as a VCT. The Investment Manager monitors the position closely and reports regularly to the Board. Philip Hare & Associates LLP has continued to act as independent adviser to the Company on VCT taxation matters.

Outlook

The portfolio continues to demonstrate resilience and growth potential. We remain confident in the strength and quality of the portfolio, many of which are well positioned to benefit from long-term structural trends. We will continue to invest selectively through the cycle, supporting high-growth businesses with strong fundamentals, while also seeking to deliver timely realisations where opportunities arise. With a diversified portfolio and a clear strategy for growth, we believe the Company is well placed to create shareholder value in the years ahead.

On behalf of the Board

James Ferguson
Chairman

Investment policy

The Company's investment policy has been designed to enable the Company to achieve its objective whilst complying with the qualifying conditions set out in the VCT rules, as amended by HM Government from time to time.

The Directors intend that the long-term disposition of the Company's assets will be approximately 80% in a portfolio of VCT-qualifying unquoted and AIM-quoted investments and 20% in other investments selected with a view to producing an enhanced return while avoiding undue capital volatility, to provide a reserve of liquidity which will maximise the Company's flexibility as to the timing of investment acquisitions and disposals, dividend payments and share buy-backs.

Within the VCT-qualifying portfolio, investments will be structured using various investment instruments, including ordinary and preference shares, loan stocks and convertible securities, to achieve an appropriate balance of income and capital growth. The selection of new investments will necessarily have regard to the VCT rules, which are designed to focus investment on earlier stage development capital opportunities. The portfolio will be diversified by investing in a broad range of VCT-qualifying industry sectors and by holding investments in companies at different stages of maturity in the corporate development cycle. The normal investment holding period is expected to be in the range from three to ten years.

No single investment will normally represent an excess of 3% of the Company's total assets at the time of initial investment. As investments are held with a view to long-term capital growth as well as income, it is possible that individual holdings may grow in value to the point where they represent a significantly higher proportion of total assets prior to a realisation opportunity being available.

Investments will normally be made using the Company's equity shareholders' funds and it is not intended that the Company will take on any long-term borrowings.

The Company operates within a co-investment and allocation policy that applies to all funds managed by the Mercia group. Under the terms of this policy, where an investment opportunity is VCT qualifying and the funding requirement is in excess of £3 million, the Company and the other VCTs managed by Mercia are the preferred lead investors. For these opportunities the Company is entitled to participate pro rata to net assets alongside the other VCT funds managed by Mercia; save where the investment opportunity is located in the West or East Midlands, Yorkshire, Humberside, Teesside or the North East, where minimum syndication requirements mean that certain other funds managed by Mercia can participate in the funding round alongside the Northern VCTs; with an allocation in proportion to each fund's relative net asset value. Where the funding round for a new opportunity is under £3 million the VCTs will not be the lead investors; but if any such deal is in excess of £2.5 million, the Northern VCT funds have the right to participate at a de minimis level of £0.5 million.

In relation to follow-on rounds of investment where the Company and other Northern VCTs are existing investors, the Company, alongside the other Northern VCT funds, shall have priority to determine how much they wish to invest, with no requirement to offer such investment opportunities to the other funds managed or advised by the Mercia group (although they are free to do so if so determined by the Manager).

Under a co-investment scheme, members of the VCT investment team and certain key Mercia executives are required to invest personally alongside the funds in each VCT-qualifying investment on a predetermined basis.

Mercia Fund Management Limited ('Mercia') acts as Investment Manager and has done so since the Company consented to the novation of its existing investment management agreement from NVM Private Equity LLP ('NVM'), effective on 23 December 2019.

The Board's Management Engagement Committee reviews the terms of Mercia's appointment as Investment Manager on a regular basis.

Statement of the Directors' responsibilities

Responsibility statement

In accordance with Disclosure and Transparency Rule (DTR) 4.2.10, James Ferguson (Chairman), Chris Fleetwood (Chair of the Audit Committee), Anna Brown, Tim Levett, David Ovens and John Waddell, being the Directors of the Company, confirm that to the best of their knowledge:

- (a) the condensed set of financial statements, which has been prepared in accordance with Financial Reporting Standard 104 "Interim Financial Reporting" gives a true and fair view of the assets, liabilities, financial position and profit of the Company as required by DTR 4.2.10;
- (b) the Half Year Management Report includes a fair review of the information required by DTR 4.2.7, being an indication of important events that have occurred during the first six months of the financial year and their impact on the condensed set of financial statements;
- (c) a description of the principal risks and uncertainties facing the Company for the remaining six months of the financial year are set out under the summary of principal risks and uncertainties below, in accordance with DTR 4.2.7; and
- (d) there were no related party transactions in the first six months of the current financial year that are required to be disclosed, in accordance with DTR 4.2.8.

Principal risks and uncertainties

In accordance with DTR 4.2.7, the Board confirms that the principal risks and uncertainties facing the Company have not materially changed from those identified in the Annual Report and Financial Statements for the year ended 31 March 2025 ("the Annual Report"). The Board considers that the present processes for mitigating those risks remain appropriate. Following the admission of the Company's largest investment on the London Stock Exchange in October 2025, the Board has included stock market risk as an additional principal risk to those included in the Annual Report. Stock market risk is the risk of adverse price

movements on the Company's listed portfolio holdings as a result of macroeconomic or other factors resulting in the decline of the overall market.

The principal risks faced by the Company are:

- Availability of qualifying investments risk
- Credit risk
- Economic and geopolitical risk
- Financial risk
- Investment and liquidity risk
- Legislative and regulatory risk
- Operational risk
- Performance of the Investment Manager risk
- Stock market risk
- VCT qualifying status risk

A detailed explanation of the principal risks facing the Company can be found in the Annual Report and Financial Statements for the year ended 31 March 2025 on pages 19 to 20, as well as in Note 18 on Financial Instruments on pages 65 to 68 of that report. Copies can be viewed or downloaded from the Company's website: www.mercia.co.uk/vcts.

Environmental, Social and Governance considerations

The Company is committed to conducting its affairs responsibly and considers environmental, social and governance (ESG) issues as part of its operations. More details of the Company's considerations can be found in the Responsible Investment section in the Annual Report and Financial Statements for the year ended 31 March 2025 on pages 31 to 32.

Going concern

The Board has assessed the Company's operation as a going concern. The Company's business activities, together with the factors likely to affect its future development, performance and position are set out earlier in the Half Year management report. The Directors have satisfied themselves that the Company's cash position is adequate to enable the Company to continue as a going concern under downside scenarios. The portfolio remains well funded and the Manager's investment team are ensuring that management teams undertake adequate cost control and cashflow planning. The major cash outflows of the Company (namely investments, share buy-backs and dividends) are within the Company's control. The Board's assessment of liquidity risk and details of the Company's policies for managing its capital and financial risks are shown in Note 18 of the Annual Report and Financial Statements for the year ended 31 March 2025 on pages 65 to 68. Accordingly, the Directors continue to adopt the going concern basis of accounting in preparing the Half-Year Report and financial statements.

Cautionary statement

This report may contain forward looking statements with regard to the financial condition and results of the Company, which are made in the light of current economic and business circumstances. Nothing in this report should be construed as a profit forecast.

For and on behalf of the Board:

James Ferguson
Chairman

Notes to the condensed financial statements

For the six months ended 30 September 2025 (unaudited)

1. Basis of Preparation

These Financial Statements are prepared in accordance with accounting policies consistent with Financial Reporting Standard 102 (“FRS102”), Financial Reporting Standard 104 (“FRS104”) - Interim Financial Reporting, with the Companies Act 2006 and the 2014 Statement of Recommended practice, ‘Financial Statements of Investment Trust Companies and Venture Capital Trusts’ (“the SORP”) (updated in July 2022) issued by the Association of Investment Companies (“AIC”). These condensed financial statements comply with FRS 104, applying the recognition and measurement principles of FRS 102. The Financial Statements have been prepared on a going concern basis.

The preparation of the Financial Statements requires management to make judgements and estimates that affect the application of policies and reported amounts of assets, liabilities, income and expenses. The most critical estimates and judgements relate to the determination of carrying value of investments at fair value through profit and loss (“FVTPL”) in accordance with FRS 102 sections 11 and 12. The Company values investments by following the International Private Equity and Venture Capital Valuation (“IPEV”) Guidelines as updated in 2022 and further detail on the valuation techniques used are outlined in note 2 below.

2. Accounting Policies

The accounting policies have been applied consistently throughout the period. Full details of principal accounting policies are disclosed in Note 1 on page 57 of the Annual Report and Financial Statements for the year ended 31 March 2025. The significant accounting estimates and judgements applied are consistent with those disclosed in the Annual Report for the year ended 31 March 2025.

3. Income

	Unaudited six months ended 30 September 2025 £000	Unaudited six months ended 30 September 2024 £000	Audited year ended 31 March 2025 £000

Investment management fee charged to revenue	313	284	582
Performance-related fee charged to capital	–	–	65
	1,250	1,136	2,392

Further details of the agreement under which the investment management fee and performance-related fee are paid are given in the Directors' Report on page 37 and in Note 3 on page 60 of the Annual Report and Financial Statements for the year ended 31 March 2025.

5. Dividends

	Unaudited six months ended 30 September 2025 £000	Unaudited six months ended 30 September 2024 £000	Audited year ended 31 March 2025 £000
Final dividend paid – 2.5p (2024:2.2p) per share	3,723	3,238	3,238
Interim dividend paid – 2.0p (2024:2.0p) per share	–	–	2,915
	3,723	3,238	6,153

The interim dividend of 2.0 pence per share for the year ending 31 March 2026 will be paid on 21 January 2026 to shareholders on the register on 19 December 2025.

6. Return per share

The calculation of the return per share is based on the return after tax for the six months ended 30 September 2025 and on 149,765,566 (30 September 2024: 147,760,918) ordinary shares, being the weighted average number of shares in issue during the period.

Notes to the condensed financial statements *continued*

7. Net asset value per share

The calculation of net asset value per share is based on the net assets at 30 September 2025 divided by the 147,737,417 (30 September 2024: 146,458,027) ordinary shares in issue at that date.

8. Related party transactions

Other than transactions with the Investment Manager as disclosed in note 4, there are no other related party transactions requiring disclosure.

9. Going concern

The financial statements have been prepared on a going concern basis. The Directors performed an assessment of the Company's ability to meet its liabilities as they fall due. In performing this assessment, the Directors took into consideration the uncertain economic outlook including:

- the investments and liquid resources held by the Company;
- the fact that the Company has no debt or capital commitments;
- the ability of the Company to meet all of its liabilities and ongoing expenses from its assets, including its period-end cash balance;
- revenue and operating cost forecasts for the forthcoming year;
- the ability of third-party service providers to continue to provide services; and
- potential downside scenarios including a fall in the valuation of the investment portfolio or levels of investment income.

Based on this assessment, the Directors are confident that the Company will have sufficient funds to continue to meet its liabilities as they fall due for at least 12 months from the date of approval of the financial statements, and therefore determine the going concern basis to be appropriate. Details of the significant post-balance sheet events are given in Note 10 of the financial statements.

10. Post balance sheet events

On 3 October 2025, portfolio company The Beauty Tech Group completed its IPO on the London Stock Exchange. As part of this transaction the Company sold 30% of its holding for proceeds of £2.3 million.

On 22 October 2025 the Company invested £1,343,000 in a new portfolio company, Space and Time Limited (trading as Tesseract). Tesseract is a provider of field service management software.

On 30 October 2025, the investment in Thanksbox (trading as Mo) was sold for £830,000.

Since the balance sheet date, the Company has invested £2,826,000 in six existing portfolio companies.

11. Other information

The information set out in this Half-yearly Financial Report does not constitute the Company's statutory accounts within the terms of section 434 of the Companies Act 2006 for the periods ended 30 September 2025 and 30 September 2024 and is unaudited. The financial information for the year ended 31 March 2025 does not constitute statutory accounts within the terms of section 434 of the Companies Act 2006 and is derived from the statutory accounts for that financial year, which have been delivered to the Registrar of Companies. The Auditor reported on those accounts; their report was unqualified and did not contain a statement under s498 (2) or (3) of the Companies Act 2006.

12. Publication

This Half-yearly Financial Report is being sent to shareholders and copies will be made available to the public at the registered office of the Company, Companies House, the National Storage Mechanism and also electronically at www.mercia.co.uk/vcts.
